

JIBRIL IDRIS

Sarnia, ON • 226-964-1336 • jibdris1@gmail.com

PROFILE

Business Intelligence & Data Analyst with strong experience interpreting operational and production data in chemical manufacturing and offshore oil & gas environments. Skilled in **data cleaning, reporting, dashboard development, and multi-source data consolidation**. Currently completing a **Diploma in Data Analysis & AI**, with hands-on experience in Python, SQL, Power BI, and advanced Excel. Known for accuracy, analytical thinking, and the ability to turn raw data into insights that support decision-making and continuous improvement.

CORE SKILLS

- **Data Cleaning**, validation, and integrity management
- **Power BI Dashboards** and Excel reporting
- **SQL querying** and multi-source data consolidation
- Trend, variance, and root-cause analysis
- Cross-functional communication with operations and finance teams
- Compliance and audit-ready documentation

RELEVANT EXPERIENCE

CF Industries — Process Operator (COOP)

- Analyzed production data, validated sample results, prepared daily reports, and supported compliance documentation.

Saltpond Offshore Producing Co. — Production Engineer / Operator

- Monitored and analyzed operational metrics, identified inefficiencies, and prepared technical reports for leadership.

Madina Institute of Science & Technology — Lecturer

- Taught analytical concepts and supervised research involving data collection and reporting.

EDUCATION

- Diploma, Data Analysis & AI (in progress)
- Advanced Diploma, Chemical Production & Power Engineering Technology
- MSc, Petroleum Production Engineering
- BSc, Petroleum Engineering
